

Capstone Project Actions Taken

Actions Taken

1. Detection and Investigation:

- Internal audits were launched after financial anomalies were identified.
- Comprehensive forensic accounting techniques were used to trace unauthorized payments and uncover the scope of the fraud.

2. Collaboration with Authorities:

- Facebook and Google immediately engaged federal law enforcement, including the FBI and international agencies.
- Legal actions led to the arrest and prosecution of Evaldas Rimasauskas, with partial recovery of stolen funds.

Summary: Although initial detection was delayed, the decisive and coordinated actions after discovery helped minimize further losses and reinforced the importance of quick law enforcement collaboration in cybersecurity incidents.
